#FoT812: Empire of Unreal

A common name for lands that manifest themselves in areas where "reality" has been significantly reduced due to supernatural events.

They are said to correspond to "intrusive things" such as insects and rain leaks that occur in cracks in the ceiling and walls when the multiverse of Technizica is compared to a room.

Category: Locations.

Attribute: All

Appendix: It is similar in nature to The Land Of Copied Paper (#FoT798), but this one is unstable, even where it appears.
