

#FoT-504:寄生幾何形体／Parasitic Geometric Shapes

<Translated 22/Nov/2021>

[illegible]

They are technical entities that parasitize intelligent beings and suck their mental energy.

When a parasite is present, they become "cognitive entities that the target of the parasite never touches," so they must be removed by a third thing using tongs or other instruments.

有知性存在に寄生し、その精神エネルギーを吸い取る技法的「テクニカル」実体。
寄生時には「寄生対象にとっては不可触な認識上の存在」と化す為、除去には第三者がトングなどの器具で摘み取る必要がある。
