

#FoT-506:幾何形体寄生幻症／Geometric Shapes Phantom Parasitosis

<Translated 24/Nov/2021>

The symptom is that even after the parasitic geometric shape (#FoT504) is removed from the body and mind, the person feels as if the geometric shape is still attached to the former parasite point for a while.

This is apparently due to the fact that the parasitic geometric shape that leave the host t leave behind a mental effect meant to makes it hard to recognize them as a fact whe n the host is parasitized again.

寄生幾何形体(#FoT504)を心身から取り除いた後も、元寄生箇所¹に幾何形体が未だに取り憑いているかのような感覚をしばらく覚えるという症状。
これは宿主から離れる際の寄生幾何形体が、再度その宿主に寄生した際にそれが事実として知覚しづらくなるような精神作用を残していくためであるらしい。
