Another world and this world, the cosmos and the technigica, the metaverse and the real, artificial intelligence and natural intelligence, the inside and outside of a window or a door, the front and back of the wall.
I think we need a language to bridge between each of them, First, let’s make as simple one of them as possible.

異世界とこの世界、コスモスとテクニジカ、メタバースとリアル、人工知能と自然知能、窓扉の内側と外側、壁の表と裏。
橋渡しの為の言語が必要だと思う……まずは、できるだけ簡便なものを。
