

#FoT-186:イイネマーク/Likemark

<Translated 08/Jan/2021>

This was created after trying to create a functional mark that can be applied to both "like" and "dislike", which was invented by Ozakefu. It seems that the inventor himself has doubts about the usability of this finished product.

オーザケフが発案した、「like」と「dislike」両方に適用できる機能的なマーク…を作ろうとした末に出来たもの。
発案者本人自身が、この完成品の使い勝手に疑問を抱いている様子。
