

#FoT-195:半生体的サウンドプレイヤー／Semi-Biological Sound Player

<Translated 17/Jan/2021>

[illegible]

This is a type of music playback device that exists in the other world of Technidica, where more than half of its components are made of organic (biological) materials. They're said to be able to play any kind of sound source media by giving them options or teaching them how to do so.

異世界テクニジカに存在する、構成の半分以上に有機(生体)素材が使われている音楽再生機器。オプションを与えたり、方法を教え込むことでありとあらゆる音源メディアの再生が可能となる、らしい。
