

#FoT-397:「見知らぬ」悪魔／The "Strange" Devil

<Translated 07/Aug/2021>

They are a devil (strictly speaking, "something like devil") that is occasionally seen in the urban areas of Technidica No.522.

If a person who has already seen this devil sees it again, the memory of "seeing this devil before" and its accompanying memories will be erased, so the help of technicians is essential when drawing its portrait.

テクニジカ 522 号の都市部にて時折見られる悪魔(厳密に言えば「悪魔のような何か」)。すでにこの悪魔の姿を見知った者が再びその姿を見ると「以前にこの悪魔を見た」記憶とそれに付随する記憶が消し飛んでしまうので、肖像を描く際には技法師の助けが必須。
